Phoenix
Laptop Arm

by Kondator

438-911N Phoenix Laptop Arm with adjustable width 250 - 370 mm.

Elegant laptop arm with unique auto-lock

Phoenix Laptop Arm of elegant design and best performance gives a functionality far above the usual. Gas-spring loaded with unique „auto-lock", gives great availability with flexibility which simultaneously ensures the level of the arm. The arm level is easily released in a second with pressure so that a new level can be adjusted with the auto-lock. Phoenix has integrated channels for cables as well as a table bracket for cable-drawing through the desktop. Angle-adjustable platform with handle. Adjustable width 250 - 370 mm.

438-950V, Wall bracket
